

# Alcoholic Drinks Packaging in Indonesia

September 2024

Table of Contents

## KEY DATA FINDINGS

### 2023 DEVELOPMENTS

Smaller metal beverage cans become more popular in beer, owing to cost-effectiveness and portability

Stout and spirits preferred in glass bottles for quality, sharing, and premiumisation

700ml size dominates brandy and cognac in Indonesia due to premium positioning and cost efficiency

### PROSPECTS AND OPPORTUNITIES

Metal beverage cans expected to grow, owing to concerns over sustainability

Cost efficiency will drive demand for larger glass bottles in lager

## About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
