

Processed Meat and Seafood Packaging in South Korea

June 2024

Table of Contents

KEY DATA FINDINGS

2023 DEVELOPMENTS

Flexible plastic holds the majority of pack type share in chilled processed meat due to its preservation qualities

Flexible plastic witnesses a decline in pack type share in frozen processed seafood in 2023

300g pack size most popular, due to portion control and affordability

PROSPECTS AND OPPORTUNITIES

Cost-effectiveness and convenience to boost demand for flexible plastic in shelf stable meat

Smaller pack sizes set to grow over the forecast period due to portion control

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
