# Processed Fruit and Vegetables Packaging in South Africa

July 2024

Table of Contents

## KEY DATA FINDINGS

### 2023 DEVELOPMENTS

Strong growth for plastic pouches in frozen fruit

Shelf stable beans mainly packaged in durable metal food cans

Brick liquid cartons record strong growth in shelf stable tomatoes in 2023

### PROSPECTS AND OPPORTUNITIES

Use of plastic pouches to increase, but metals food cans will remain the dominant packaging type

Frozen processed vegetables to continue growing over the forecast period

## About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
