Processed Meat and Seafood Packaging in Japan

June 2024

Table of Contents

KEY DATA FINDINGS

2023 DEVELOPMENTS

Flexible plastic dominates, due to its excellent barrier against freezer burn

Thin wall plastic containers maintains its strong position due to convenience and product protection

Folding cartons declines due to the lack of barrier properties

PROSPECTS AND OPPORTUNITIES

Metal cans set to decline as consumers prefer high quality and sustainable formats

Smaller pack sizes anticipated to gain popularity for portability and portion control

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
