

The Future of Energy-Boosting Drinks in Western Europe

January 2022

Table of Contents

INTRODUCTION

Scope

Key findings

The expanding range of energy-boosting drinks

Absolute retail value growth in energy drinks is set to exceed that in coffee

Consumers seek added vitamins for energy- and immunity-boosting purposes

Online sales of energy drinks continue to grow in Western-Europe

Coffee brands in Europe use milk alternatives to attract younger consumers

Coffee expands its horizons through the RTD coffee format

Monster Energy increasingly closing the gap with Red Bull

Energy drinks have become the epitome of energy-boosting beverages

Germany leads in retail volume; France forecast fastest growth

France has among the lowest per capita consumption of energy drinks

Beyond energy drinks: Alternative forms of energy-boosting drinks on the rise

Other energy-boosting beverages: Tea, RTD tea and juice (superfruit/FF)

Energy drinks set to perform strongly, whilst energy-boosting drinks could outperform

Powder and dissolvable energy formats threaten RTD opportunities Europe

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
