Meals and Soups Packaging in Malaysia

June 2024

Table of Contents

KEY DATA FINDINGS

2023 DEVELOPMENTS

Folding cartons gaining share in meals and soups thanks to their convenience

Thin wall plastic containers the preferred pack type in dried ready meals

Shelf stable soup still only uses metal food cans for its packaging

PROSPECTS AND OPPORTUNITIES

Ready meal trays to see strong growth in frozen ready meals

The 170g pack size is expected to gain share in frozen pizza

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
